SUMMARY

Detail-oriented Analyst Trainee with foundational exposure to analytical frameworks. Collaborated on team projects to enhance operational efficiency, aiding in data-driven decision-making. Seeking to transition into a full-time Analyst role to leverage analytical acumen and contribute to innovative solutions in data analysis.

EXPERIENCE

Intern

Powered IT solutions

January 2024 - May 2024

During my web development internship, I built responsive web applications and created a personal portfolio site to highlight my technical projects. This experience enhanced both my frontend development skills and my ability to work with Git for efficient version control and team collaboration.

Intern

Makers Mind Soft Solutions

June 2023 - August 2023

- During my web development training, I gained a solid foundation in structuring web content using HTML and semantic elements to create clean, organized, and accessible layouts. I developed hands-on experience in styling web pages with CSS to enhance visual design and improve user experience. Additionally, I built interactive and dynamic web pages by applying JavaScript and related technologies, enabling responsive and engaging interfaces.
-

PROJECT

Web Development with HTML, CSS and JavaScript

Apex Planet

• May 2025 - June 2025

- Completed a 45-day Web Development Internship at ApexPlanet Software Pvt. Ltd., where I worked on multiple projects using HTML, CSS, and JavaScript. I built and styled responsive web pages, implemented interactive features using JavaScript, and developed a full-fledged front-end project. Tasks included creating webpage layouts, applying advanced styling techniques, validating forms, manipulating the DOM, and ensuring cross-device compatibility. Each task was documented and submitted via GitHub, with demo videos shared on LinkedIn for professional presentation and review.

EDUCATION

Bachelor of science

Pragati women's degree college - 2024

- Peddapuram
- CGPA-9.26

Board of Intermediate education

Pragati junior college - 2021

- Prathipadu
- CGPA- 9.2

Board of Secondary Education

Bhashyam High School -2019

- Yeleswaram
 - CGPA- 9.7
-

CERTIFICATIONS

Python

Infosys Spring Board

- Successfully completed the Python Foundation Certification from Infosys Springboard in June 2025. This certification covered essential programming concepts including data types, control structures, functions, and an introduction to object-oriented programming, strengthening my foundation in Python and enhancing my problem-solving and coding skills.

NOSQL Databases

Infosys Spring Board

- Successfully completed a comprehensive course that introduced core NoSQL database concepts and architectures. Gained practical understanding of various NoSQL models, including key-value stores, document-oriented databases, column-family stores, and graph databases. The course emphasized the differences between relational and non-relational databases, scalability, schema flexibility, and use cases in real-world big data applications. Strengthened foundational skills required for handling unstructured data and building modern, scalable data solutions.
